Breakfast with Santa is Middleburg Community Charter School's (MCCS) largest fundraiser. This event is where we raise the majority of our funds for the school year which sponsors educational field trips and assemblies, community activities, supports STEAM programs for our students, and provides funds for needed supplies for our staff.

MCCS, the first charter school in Loudoun County and part of Loudoun County Public Schools, uses a Leonardo da Vinci-inspired curriculum which inspires its students to become confident and caring problem solvers aware of their connection to their family, community, country, and the world. A dedicated staff and small school environment provides children with the attention and resources to become curious and confident learners using essential 21st century skills. The communication, collaboration, and critical thinking skills they learn equips them to become productive global citizens.

MCCS no longer receives a grant from the VA DoE. Therefore, we rely on the generous donations from those in our community, like you, to host Breakfast with Santa and raise the necessary funds for our school to continue to grow and nurture young minds.

Sincerely,

Sarah St. André
